

BACKGROUND INFORMATION ABOUT ROMAN WAY ESTATE CIC

Roman Way Estate CIC will ensure excellent provision of services and improve the quality of life for tenants and residents through tenant management and community involvement

Roman Way Estate is situated in the B15 area of Edgbaston, Birmingham, Directly beside the QE Hospital Birmingham.

The estate is of mixed tenure including council tenants, leaseholders, free hold properties and a student population. The area is considered a desirable area in which to live given its close proximity to the hospital and Birmingham University. Excellent transport links are close to the estate.

Under the banner of Roman Way Residents Group a Right to Manage Notice was served on BCC in 2006. Following development and training Board members were assessed as competent to manage the estate in October 2010. A subsequent ballot of residents gave RWE CIC the mandate to progress toward becoming a TMO.

We believe in an all-inclusive policy to all residents across the estate and hold regular crime prevention, fun days, bulb planting days on the estate, we also hold Christmas events to encourage residents to meet each other.

We are also proactive on various estate initiatives including Neighbourhood Tasking which brings together key stakeholders such as police, fire, hospital, city council, and councillors to address issues across the estate. We have an exceptional relationship with our local policing and fire service teams who are regularly seen on the estate.

We are proud of the relationships we have formed with key stakeholders in the estate which only seeks to continue our commitment to resident involvement.

RWE CIC is a proud member of the National Federation of TMOs (NFTMO) and enjoys an excellent relationship with other TMOs both within Birmingham and across the country.

As we progress on our journey toward tenant led, tenant focused housing services we are looking for people who share our vision, goals and desires to make Roman Way Estate an even more desirable area for residents to live.
